

# Golf Project - Wellness

Names: \_\_\_\_\_ Block: \_\_\_\_\_

Golf Topic: \_\_\_\_\_

Your assignment is to create a visual representation of your golf subject. A major concept of wellness is that you are multidimensional with more than one layer. The purpose of the project is for you to be introspective and really reflect on the golf topic and then share some of your realizations/thoughts with others. In your presentation you should demonstrate an understanding of the golf subject.

## Grading Criteria (10 points each)

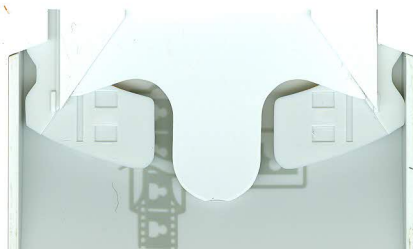

- |                           |                                                                                                                                                 |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| _____ <b>Neatness</b>     | - Complete & labeled, quality workmanship<br>- Area is clean and organized                                                                      |
| _____ <b>Creativity</b>   | - Text, magazine clippings, graphics and artwork are all acceptable                                                                             |
| _____ <b>Effort</b>       | - Use of class time and progress made at home if needed<br>- Class behavior<br>- Thoughtful/well planned<br>- Completed sheet handed in on time |
